And some other thoughts...

For children, enjoying tasty hot lunch with friends in class is one unforgettable school experience. However, it could gradually become a burden for parents to prepare delicious hot lunch and deliver to school on time with their busy lives. It could be even harder for schools to manage Hot Lunch Program with bigger student populations and various requirements. With full-licensed kitchen and in-house delivery team, we dedicate ourselves to be the aide for parents and schools in providing quality hot lunches. We believe that an efficient hot lunch program not only reduces parents' worries, but also contributes to the development of schools in many ways.

We look forward to take part in creating a happy hot lunch environment and long-lasting delicious memory for the children in your school!
